SUMMARY

Full Stack Developer with a background in Biology (Physiology). I'm passionate about applying my critical thinking skills, and value human-centered design in order to create visually appealing and user-friendly experiences.

TECHNICAL SKILLS

Front End: HTML / CSS / JavaScript / jQuery / React / Bootstrap / Bulma / Materialize

Back End: Node.js / Express.js / MongoDB / MySQL / GraphQL / Sequelize / Mongoose

Tools: Git / GitHub / Photoshop / Illustrator /

PROJECTS

Social Media SQL Full Stack | github.com/gerarjon/social-media-sql | social-media-sql-gs.herokuapp.com

React, Node.js, Express.js, MySQL, Sequelize, Bulma, Axios

- Main utilities built within 10 days; site is continually updated for new features as well as consistent security, authorization, and authentication.
- Full stack web application that allows users to create posts, and lets users like and comment on other posts.
- API built using MySQL, Sequelize for ORM, Node.js, and Express.js; leveraged REST integration with Axios

Event Booking GraphQL Full Stack | github.com/gerarjon/event-booking | event-booking-gs.herokuapp.com/

Bulma, React, GraphQL, Node.js, Express.js, MongoDB, Fetch

- Users are able to create accounts and log in. Once logged in, users can create their own events with prices, descriptions, and dates for other users to see. They can also book events and delete their own booked events.
- The backend API is made using MongoDB, Mongoose, and GraphQL - REST configured with GraphQL and Fetch
- Solo project developed with React in order to be a responsive, mobile-first designed application.

React Google Books API | github.com/gerarjon/react-google-books | reactgooglebooks-gs.herokuapp.com

Materialize, React, Axios, Express.js, MongoDB, Mongoose

- Users can search for books on the application through the Google Books API. Users can view more information on the book and also save the book to the app's MongoDB API.
- Project built within 1 week and uses the MERN stack; is a responsive and mobile friendly website.

PROFESSIONAL EXPERIENCE

Prometric Testing, Mountlake Terrace, WA

August 2019 – January 2020

Test Center Administrator

- Administered over 100 unique exams requiring candidate identification and created comfortable testing experiences
- Often managed own room, overseeing up to 25 candidates at a time including their equipment
- Wrote and submitted ~10 detailed reports and correspondence per day describing activities and behaviors of candidates or condition abnormalities which lead to an increase in testing environment conditions by 20%

Bethany at Silver Crest, Everett, WA

June 2015 – December 2016

Dietary Aide

- Managed inventory of food and cleaning supplies within the kitchen, taking and organizing shipment twice a week
- Created an inventory map for the walk in freezer to better organize inventory and display information at a glance, increasing efficiency for rotation of goods by 100%.
