SUMMARY

Full Stack Web Developer with a background in Biology (Physiology). I'm passionate about applying my critical thinking skills and value human-centered design that's impactful for the community that surrounds me. The combination of my technical expertise and emotional intelligence make me a unique team member who would add value and efficiency to your team.

TECHNICAL SKILLS

Front End: HTML / CSS / JavaScript / jQuery / React / Bootstrap / Materialize / Bulma.io /

Back End: Node.js / Express.js / MongoDB/ MySQL / GraphQL

Tools: Git / GitHub / Photoshop / Illustrator /

PROJECTS

Event Booking | github.com/gerarjon/event-booking | event-booking-gs.herokuapp.com/
Bulma, React, GraphQL, Node.js, Express.js, MongoDB
- Users are able to create accounts and log in. Once logged in, users can create their own events with prices, descriptions, and date for other users to see. They can also book events and delete their own booked events.
- The backend is made using MongoDB, API configured with GraphQL, and utilizes React in order to be a responsive website.|

Social Media SQL | github.com/gerarjon/social-media-sql | social-media-sql-gs.herokuapp.com
React, Node.js, Express.js, MySQL, Sequelize, Bulma
- Full stack web application that allows users to create posts and lets users comment on other posts.
- Created associations between Post tables and Comment tables.
- This is a solo project that is updated continually.

React Google Books | github.com/gerarjon/react-google-books | reactgooglebooks-gs.herokuapp.com
Materialize, React, Axios, Express.js, MongoDB, Mongoose
- Users can search for books on the application through the Google Books API. Users can view more information on the book and also save the book to the Mongo database.
- This solo project uses the MERN stack and is also a responsive and mobile friendly website.

PROFESSIONAL EXPERIENCE

Prometric Testing, Mountlake Terrace, WA   *August 2019 – January 2020*
Test Center Administrator
- Administered over 100 unique exams requiring candidate identification and created comfortable testing experiences
- Wrote and submitted ~10 detailed reports and correspondence per day describing activities and behaviors of candidates or condition abnormalities which lead to an increase in testing environment conditions

EDUCATION

UNIVERSITY OF WASHINGTON (CODING BOOT CAMP), SEATTLE, WA   *January 2020*
